Re: Purchase of Wearable Digital Video Systems- Body-Cams
Date: September 12, 2014

At this time I am requesting approval for the purchase of five Digital-Ally wearable digital video systems commonly known as Body-Cams. This equipment is an upgrade to our current in-car systems and allows each officer to digitally record all contacts with the public while outside of their vehicles. We have been testing this system for several weeks now and find it of high quality and very useful in documenting our daily contacts with the public.

This equipment can be purchased through the State of Michigan competitive bid process under contract # 071B1300202.

5-Digital Ally- First Vu HD Wearable Digital Video Systems- Body Cam complete kit and VuVault Software and license- \$4050.00.

Recommendation: Accept State of Michigan bid of \$4050.00 for the purchase of the Digital Ally Wearable Video System and software.
