

Memo

To: Planning Commission
From: Bryan Myrkle, Community Development Director
Date: November 25, 2015
Re: Spartan Motors Site Plan review

On your agenda for the December Planning Commission meeting is a site plan review for a new manufacturing plant on the Spartan Motors campus here in the city.

An electronic copy of the plan is included with your online packet, and paper copies will be available for your review beginning Monday and at the meeting.

This represents a change from the site plan approved for this project earlier in the fall. Spartan has been asked by their business partners at Isuzu to make some changes in the scope of this project, and this revised plan represents that.

Representatives of Spartan will be present Tuesday evening to answer any questions you may have about this site plan.

You can also call me on Monday or Tuesday at (517) 543-8853 if you have any questions for city staff.
