Comment: Dear Mayor and Council:

While I certainly respect your right to vote the way that you did on the City Manager's contract extension, that you did so, with one vote (Mr. Johnston) changing without an explanation being offered, is rather mystifying. I think that an explanation of what motivates your actions - one that separates policy issues that the last Council, on which I served, decided, from administrative actions that fall within the City Manager's scope of responsibility would help everyone understand why you are taking this action. Nothing that I read or heard during the recent election raised the issue of continuance of the City Manager's tenure here, and as his work is universally respected, knowing the cause of your action would go a long way toward maintaining that public trust that is implied by 'the consent of the governed,' a foundation of our form of government. Going forward, I would hope that you'd offer the City Manager a fair contract, knowing as you must that his present compensation is already relatively modest to begin with.

Thank you for taking the time to consider my views.

Respectfully,  
-Lloyd A. Conway
