

Memo

To: City Council
From: Amy E. Gilson, P.E., Director of Public Works
Date: July 3, 2019
Re: Playground Equipment Purchase

When preparing their requests for investment into the city parks, the Park Advisory Board picked out some new dinosaur climbing elements to replace old equipment at Dean Park. The manufacturer of the equipment is Playworld, and their Michigan representative is Midstates Recreation. A quote was received for \$36,925.00 which includes estimated shipping charges.

The Park Advisory Board also put in a grant application to the Charlotte Area Recreation Cooperative (CARC) to cover the cost of the purchase not to exceed \$36,925.00. The grant was awarded at the CARC meeting on May 20, 2019. The city will be providing in kind services by having the Department of Public Works install the play elements.

In accordance with Section 2-186 of the City Ordinances, I am hereby requesting that City Council approve the waiver of the sealed bid process for purchases over the amount of \$5,000 and the required three quotes for purchases over \$2,500 due to the proprietary nature of the equipment chosen by the Park Advisory Board.

Please let me know if you have any questions.

Kids become daring dino-hunters as they climb, hide, and dig among the giant bones, fossils, and eggs. Made of solid PolyFiberCrete® for durability—no cracking or chipping of surface layers. Purchase and install elements individually, or in any combination to create a complete play system.
